Boston Network Company Profile

Boston Network Ltd. is a consortium of professionals who provide educational services such as in-house programs, public seminars, world-leading institutes' courseware licensing, world class speaker events and training under the Boston Network and Advanced Institute of Management brands.

Our Mission

To compete in world-class hyper competitive environments like today, we need to raise our human capital potential to international standard. Today, companies are constantly looking to do more with less in order to keep up with—and outpace—change and competition. Responsibilities may increase at a moment's notice and require different or greater skills. That's why training has never been more critical for advancing careers and achieving organizational success. Ongoing learning enables managers to continuously enhance their professional and personal development and increase their value to their organizations. It is our mission to bring world-class knowledge and best business practices to Thai society.

What We Do

- **Public Seminars and In-house Training**

We are a leading knowledge provider in Thailand that provides a full range of management development, training, seminar and educational services to individuals, companies and government agencies under the “***Boston Network***” brand. Each year, thousands of business professionals acquire the latest business know-how, world-class cutting-edge management knowledge, valuable insights and increased confidence at our seminars, conferences, current issues forums and briefings. We bring in leading practices and knowledge from around the world to the Thai community for the exchange of the latest information, ideas and insights on management practices and business trends. Many professionals have turned to our training program for the practical training and business tools needed to improve individual and organizational performance—and achieve bottom-line results.

Network

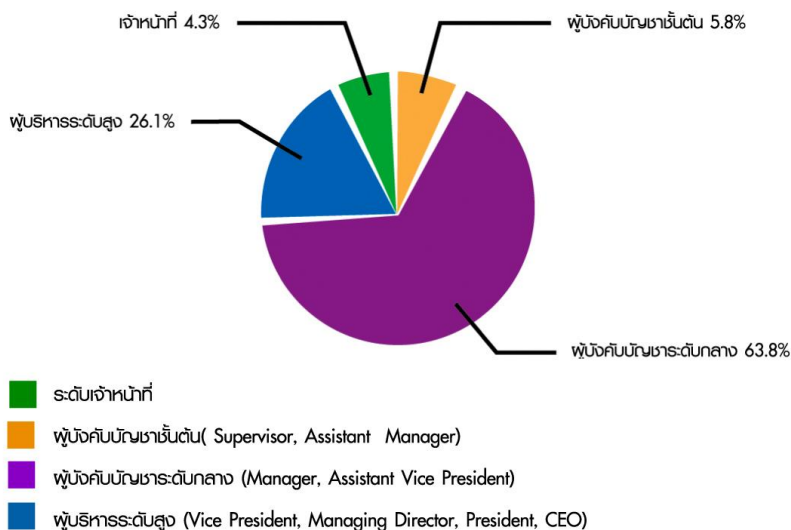

Boston Network's seminars provide managers and their organizations with the knowledge, skills and tools they need to improve business performance, adapt to a changing workplace and prosper in a complex and competitive business world.

We also serve as a medium or forum to bring in cutting-edge knowledge around the world to the Thai community for the exchange of the latest information, ideas and insights on management practices and business trends. We disseminate content and information to audiences through multiple distribution channels and strategic partners.

• World-Class Curriculums

Boston Network's course curriculums incorporate best-in-business thinking and practices and are designed for all organizational levels. Covering the full range of competencies in all business functions, they include seminars in communication, finance, human resources, information technology, leadership, management, marketing, project management, sales and strategic planning—and can be delivered through public seminars or on-site programs and as customized learning solutions.
